C. & P. TELEPHONE---BELL SYSTEM---LOCAL AND LONG DISTANCE

Owing to the severity of the weather in the past two months, many farmers and fruit growers have been unable to complete preparations for their usual Spring planting of trees. This gives us a larger surplus of trees this Spring than usual, and to the end that we may clean up at close of season in the usual good shape, and, as an advertisement for the future, we submit for prompt acceptance the enclosed list of apple and peach.

This special offer applies to customers now on our books, and those who have previously bought of us, their names appearing on our mailing list; also, new customers for present planting.

Your esteemed favors will be appreciated and may we not ask to have you send us your order promptly, that we may book same and reserve stock.

You will observe that all varieties offered are desirable kinds.

Discouragement in the past of many because of two or three crop failures in peach only make the present planting a better investment.

Carloads at special quotations on submission of want list.

If not too distant, visit our nursery at Halfway, Maryland, on Electric Car Line between Hagerstown and Williamsport, Md. Make your visit, if possible, 16th, 17th or 18th of April, or thereabout—sooner, if you prefer.
